A 3D perspective view of a completed LEGO Technic model. The structure is built on a large green base plate. It features a complex arrangement of various colored bricks and connectors, including green, brown, grey, orange, blue, and yellow. The model has a multi-tiered appearance with a central vertical structure and several horizontal sections. The overall design is intricate, showing a variety of LEGO Technic components used in its construction.

A 3D perspective view of a completed LEGO Technic model. The structure is built on a large green base plate. It features a complex arrangement of bricks in various colors including green, brown, grey, blue, orange, black, and white. A central opening is visible in the upper part of the structure. The model appears to be a functional mechanism, possibly a motor or a pump, given the presence of a central cylindrical component and various connectors.
